

Puppy info

Rottweiler Puppy Owner Information Pack

We know that bringing home a new Rottweiler puppy is one of the most exciting moments for any family – but we also understand that it can feel overwhelming. Between the joy, the playfulness, and the endless puppy cuddles, there are often many questions and worries too. That's why we have carefully prepared these Puppy Information Sheets: to give you peace of mind, practical guidance, and expert knowledge to help you raise your puppy with confidence.

Think of this pack as your step-by-step guide to the journey ahead – covering health, safety, training, and everything you need to know to give your puppy the very best start in life. From the first day at home, through growth and development, all the way to maturity, these sheets are designed to answer the questions you didn't even know you had – so you can simply enjoy the adventure of raising your Rottweiler.

Puppy info

Table of Contents – Puppy Information Sheets

Welcome – A personal message and lifelong support.

F10 SC Veterinary Disinfectant – MOST IMPORTANT – Protecting your puppy from dangerous viruses and bacteria.

Puppy Safety – How to puppy-proof your home and garden.

Medical Insurance – Why pet insurance matters and how to protect your puppy early.

First Aid Kit – Essential items every Rottweiler home should have.

Puppy Health – Daily checks and early signs of illness.

Parasites – Worms, fleas, ticks, Giardia, and Coccidia explained.

Vaccinations & Parvovirus – Why your puppy isn't fully protected until the full vaccine course is complete.

Crate Training – Creating a safe and comforting space for your puppy.

Potty Training – Step-by-step guidance for house training success.

Feeding & Nutrition – Balanced diets and slow skeletal growth for large breeds.

Introducing Puppy to Family Pets – Making safe and positive introductions.

Children and Puppies – Teaching children how to interact safely and kindly.

Safe Exercise – Protecting growing bones, safe play, and exercise guidelines.

Biting, Chewing & Digging – Understanding natural behaviours and redirection techniques.

Grooming – Brushing, nail care, and why handling exercises are so important for the future.

Puppy Imprinting – Early learning, socialisation, and why the first 8 weeks shape your puppy's lifelong behaviour.

Spaying & Neutering – Why timing matters for large breeds and the medical risks of doing it too young.

Growth Plates – Understanding bone development, how long plates take to close, and why over-exercise can cause permanent damage.

Safe Mental Stimulation – How to keep a working-breed puppy busy with safe brain games, scent work, and enrichment activities.

Jaw & Skull Growth – Why slow maturity can cause temporary bite irregularities and why the ADRK allows up to 36 months for natural correction.
